The business world is constantly changing and receiving financing for your business can be a challenge. Determining the right financial fit for your business is essential for success.

**Benefits of Small Business Loans & Merchant Cash Advances**

**DO YOU NEED QUICK CAPITAL TO GROW YOUR BUSINESS?**

Access from $4K up to $2M in capital in as few as 5 business days!

**Small Business Loans**

- Loan based on bank account balance and cash flow of your business.
- Get access to working capital you need, even if you have less-than-perfect credit.
- Payback is made via a small, fixed daily payment from your business bank account.

**Merchant Cash Advances**

- Easy way to obtain financing by leveraging your future credit card sales.
- Funding based on business performance, even if you have poor credit.
- Flexible repayment from daily credit card sales. Businesses repay less on slow business days and more on high-volume days, ensuring proper cash flow.

Whether you obtain financing via a small business loan or merchant cash advance, your business can:

- Qualify for additional financing even before repaying the original amount in full.
- Use capital for any business expense, including purchasing inventory, expansion, advertising and more.

**Benefits of Small Business Loans & Merchant Cash Advances**

- More than 80% of small businesses use some sort of financing to build their business.
- 61% of small business owners bank loan applications were rejected last year alone.
- 60% of small business owners have faced difficulty obtaining loans for growth needs.

**Access from**

$4K up to $2M in capital in as few as 5 business days!

Qualify for additional financing even before repaying the original amount in full.

Use capital for any business expense, including purchasing inventory, expansion, advertising and more.

**Which Financial Solution is Right for Your Business?**

- Does your business have predictable cash flow?
- Do you accept debit/credit cards and need payback flexibility?

**Small Business Loans**

- Loan based on bank account balance and cash flow of your business.
- Get access to working capital you need, even if you have less-than-perfect credit.
- Payback is made via a small, fixed daily payment from your business bank account.

**Merchant Cash Advances**

- Easy way to obtain financing by leveraging your future credit card sales.
- Funding based on business performance, even if you have poor credit.
- Flexible repayment from daily credit card sales. Businesses repay less on slow business days and more on high-volume days, ensuring proper cash flow.
